## THE SPECULATIVE MARKETS

Trade on 'Change Was Paralyzed by the Derby Yesterday.

DIRECTORS CLOSED THE SESSION EARLY

What Business There Was Occurred the First Hour-First Trades Were at About the Final Figures of Friday.

CHICAGO, Ill., June 25. - The derby paralyzed trade on 'chance today, and the directors readily closed the session forty-five minutes before the usual hour.

There was a poor excuse for a wheat market most of the session. The principal matters to consider were the weather, the harvesting reports, and the probabilities of the antioption bill. None of these contained any-thing to change prices much. Finetuations were confined to from \$40 to \$40 range, and the closing was about \$40 lower than yester-

The core market was not quite so narrow as wheat. What action there was occurred the first hour. The rece pts, owing probably to railroad washouts, fell considerably under the estimate at 53 cars for the day. The grad ng was not improved, with only forty

four cars contract corn.
First trades were at about the final figures of yesterday. Upon the filling of a few orders which came in the market firmed up 4c, but reacted from he to he, a local operator supposed to be interested in the ion ; side selling freely of September. July sympathized in the

freely of September. July sympathized in the decline. The market again railied, and at the close July had gained from he to he and September but a fraction.

Outs closed from he to he lower on the near futures and about steady on the deferred deliveries. Trade was feature ess.

An advance of 124c in lard for the day was the feature of the provision trade. The demand was remarkable from first to last and he offer ags were light. While por and ribs were a little active and higher thad yance was not in keeping with lard, usually the slowest thing on the list. The receipts of hogs were light, which may have encouraged the hugers for the long account and caused some buying also for shorts.

Lake rates were rather slow. The rapid current in the river prevents vessels from getting to the elevators to lond. Rates held steady at 2c for wheat and lige for corn to Buffalo.

Traders' Talk.

Traders' Talk.

CHICAGO, Ill., June 25.—Counselman & Day to Cockrell Bros.: Wheat ruled extremely dull after a little early selling by St. Louis and Minnerpolls and some buying by Pardridge and New York. The anti-option terror has seized speculators and anter-harvest indifference possesses shippers. The market closed quiet and about unchanged. Contract grades of corn and oats are scarce and firmly held, but shippers have been freely supplied from liberal arrivals of low grades. Crop prospects are below the average and we think the market in a condition to sell much higher on any diminution of current

from liberal arrivais of low grades. Crop prospects are below the average and we think the market in a condition to sell much higher on any diminution of current receipts. Provisions are in better demand for shipment and export and outside speculative holders are increasing their lines, but as packers are steadily meeting both classes of buyers it seems difficult to get much more advance in prices at present. In fact the market looks a little tired this week, although the local crowd in ribs have succeeded in establishing higher prices.

Chicago, ill., June 25.—F. G. Logan & Co., to Buncam, Hollinger & Co.; Our wheat market today has been of a holiday character. July opened at 78½c, sold as high as 78½c to 78½c, and closed at 78½c to 78½c. The general trade fee is the influence of the widely advertised bearish conditions of a surplus of 70,00,000.

Bushes of wheat left over from last crop and the prospect of a crop which, if not equal to last year, promises to be above the average for the eight years preceding 1891. Future values are dependent entirely on our export demand after our crop is secured. The Hatch bil keeps the trade in suspense. Corn is strong, we believe or all breaks that it is a safe parchase. Business in oats is an important. Hoz product is steady. The receipts of hors are light, should they continue right prices will go higher.

Chicago, ill., June 25.—Kennett, Hopkins & Co. to S. A. McWhorter. With continued hoavy receipts and decreasing exports it is expected that the visible supply of wheat will show little change on Monday. In fact it is not expected that the visible supply of wheat will show little change on Monday. In fact it is not expected that the visible supply of wheat will show in the southern states. Occasionally some country trader long of wheat will show any receipts and decreasing exports it is expected that the visible supply of wheat will show any force of the receipts from disinterested sources are generally favorable. Prime says the tenditions in the northwest are fully as

STOCKS AND BONDS.

Business Was Tame and Uninteresting Throughout the Session. New York, June 25.—The stock market was tame and uninteresting throughout the session today, the duliness being extreme, while the trading was almost wholly confined to the present element, and while the temper was strong throughout, it was due entirely to the covering operations of local operators. Nat-turally the stocks which have been most under pressure for the last week were strong and conspicuous. Among them was Bur-lington, which was the only stock which succeeded in reaching five figures in the amount of its transactions and was the only one in which the extreme

LIVE STOCK MARKET.

Cattle Are Higher and Active-Hogs Still Above \$5.

OMAHA, June 25.—The week's receipts foot up 9,268 cattle, 46,523 hogs and 4,898 sheep, against 11,684 cattle, 41,573 hogs and 556 sheep last week and 7,458 cattle, 28,984 hogs and 351 sheep the corresponding week of June last year.

sheep the corresponding week of June last year.

During the early part of the week, with fairly liberal supplies, the cattle market continued to droop and the outlook was rather discouraging. For the past three days, however, receipts have been unusually lith and in consequence values have firmed up considerably. Especially has this been the case with vood to choice dry lot cattle of all weights. These are selling anywhere from loc to like better than a week ago. Shipping, half fat and green steers are selling about as low as last week and they will probably go lower from now on as grass cattle begin to arrive in numbers. The recent improvement in eastern markets has put new life into the shipping and export trade and a good share of the slies of good cattle the latter part of the week have been to these buyers. Butchers' stock and canners have shown comparatively little change all week and the same holds true of stockers and feeders. Prices are rulling pretty much the same as a week ago.

Hog values bave shown an upward tendency. The continued liberality of the receipts has been more than counterbalanced by the activity in shipping circles. Prices are about 20c higher than a week ago, the advance being confined to no particular grade or weight. Heavy and butcher hogs continue to command a premium of from 2½c to 5c over light and mixed stuff and the spread refuses to widen, although one reason for this lies in the unusually even quality of the hozs now coming to market. The general tone to the trade is decidedly firm.

CATLE—Receipts were quite liberal for the last day of the week, and the quality was very good taken as a whole. Continued favorable advices from eastern and continuental markets led to continued activity on the part of shippers and exporters. This, together with a very respectable inquiry from local dressed beef houses, produced a stronz, healthy tone, aithough in general there was no quotable advance as coppt perhaps on the more desirable handy grades of corn fedsteers; those in some cases were year. During the early part of the week, with

feeted.

Cows and mixed stock was unchanged, poor to choice stock selling at from \$1.55 to \$1.25. Buils were in meager supply and about steady at from \$2.25 to \$2.85. Calves moved slowly and at nominally stoady prices.

Offerings of stock and feeding cattle were limited and in quality common. The outside demand was light and the feeling weak. Sales of 4 4 to 1,031-lb. animals were at from \$2.70 to \$3.30. Representative sales:

It fills the bill—a dose of Dr. Pierce's Pleasant Pellets. Sick Dizziness, Constipa-tion, Indigestion, Bil-ious Attacks, and all derangements of the liver, stomach and bowels are promptly relieved and permanently cured. But not in the way the huge, old-fashion-

the luge, old-fashioned pill tries to do it. These little Pellets have better methods. They cleanse and regulate the whole system naturally. In other words, they do it thoroughly, but mildly and gently. There's no disturbance to the system, diet or occupation. They're the smallest in size, but the most effective in result—purely vegetable, perfectly harmless. Only one little sugar-coated Pellet for a laxative—three for a cathartic.

CLAIM YET?

You'd better not waste any more time if you expect to get anything from the government. Unless you put your claim on record before March \*3, 1894 you will never have another chance. It takes time to put an application in shape, and there is not a bit of spere tima left. Whatever you have lost by the Indians, under the conditions described in the law, can be recovered if you go about it in the right way. The Bae Bureau of Claims knows just how to go to work.
